

CUT-N-WELD 2022

COMPANY PROFILE

INTRODUCTION

Cut-n-Weld, a BBEEE initiative, imports a broad range of high quality welding and cutting products. These products are distributed throughout Sub Saharan Africa from our own warehouses and an intensive distributor network.

A broad range of quality welding and cutting products, technically proficient staff, spares backup and extensive distribution have ensured that we have stayed true to our principle of giving our clients the best possible welding solution. Cut-n-Weld offers a wide range of quality welding and cutting products from leading manufacturers to help you achieve the best possible welding solution.

A PHILOSOPHY OF CONTINUAL IMPROVEMENT

Many companies find a solution that helps their customers and keep selling it over the years. Even when you find a suitable solution, there is always a better one somewhere on the horizon.

We continuously revise how we service our customers, our internal processes and, most importantly, the range of products we supply to our customers. We ensure we are always at the cutting edge of technology, procuring a range of welding and cutting products that provide our customers with the best and latest fabrication solutions.

CUT-N-WELD IMPORTS A BROAD RANGE OF **HIGH-QUALITY** WELDING AND CUTTING PRODUCTS.

Our eCommerce platform makes it easy to find the products you're looking for and convenient to reorder based on your past purchases. These products are distributed throughout Sub Saharan Africa from our warehouses utilising an intensive distributor network.

VISION

Our Vision is to improve the fabrication industry with the best and latest solutions worldwide.

MISSION

To continuously improve how we service our customers, our internal processes and, most importantly, the range of products we supply to our customers.

**CUT-N-WELD FOR ALL
YOUR WELDING NEEDS**

With a broad range of quality welding and cutting products, along with technically proficient staff, we have always stayed true to our principle of giving our clients the best welding solutions.

ABOUT OUR ONLINE PRODUCTS

We import and distribute a broad range of welding equipment and consumables and emphasise providing high-quality products. We understand the value that our customers place on using machinery and consumables that do the job reliably, efficiently and consistently every time.

ARC ACCESSORIES

Cut-n-Weld stocks a high-quality range of Taurus arc welding accessories. This product range includes items such as earth-clamps, chipping hammers, wire-brushes, electrode holders, welding cable, gouging torches and gouging carbons.

MIG, TIG AND SPECIALISED WELDING TORCHES

Cut-n-Weld stocks a broad range of MIG, TIG and special application welding torches and spare parts, covering a vast range of welding applications. The Taurus range of MIG and TIG welding torches is a high-quality product range interchangeable with the popular welding torch designs prevalent in the South African market. The additional Parweld range is an exciting new approach to welding torch design which delivers significant benefits in terms of welder comfort, heat dissipation and consumable longevity. This range includes the renowned XP8 range of MIG welding torches, flux cored wire torches and Push Pull torches.

PLASMA CUTTING MACHINES AND TORCHES

Cut-n-Weld markets the Flama range of plasma cutters, torches and consumables. This internationally popular machine is renowned for its innovative features, high quality and precision cutting ability. The range covers plasma parts and consumables for all popular plasma cutting brands.

WELDING MACHINES

Cut-n-Weld imports and stocks the Strike Master range of welding machines, designed for medium duty industrial welding applications. In addition, the Taurus range of welders cover a range of industrial welding machines designed for heavy duty welding in demanding industrial environments. The range covers Manual Metal Arc (MMA) welders, Metal Inert Gas (MIG) welders, Tungsten Inert Gas (TIG) welders and Multi-function welders. Products coming soon in the meantime you can download our brochure on the right-hand side.

AUTOMATED CUTTING SYSTEMS

Cut-n-Weld offers a range of CNC plasma cutting tables, machines and control systems. Our range of plasma cutting tables deliver high speed precision cutting at a low-cost investment.

WELDING CONSUMABLES

Cut-n-Weld imports and stocks a range of welding consumables to cover all market sector requirements. Strike Master (MMA) electrodes offer an affordable range for everyday usage. The Taurus consumable range covers a comprehensive range of high quality welding filler materials designed for use in demanding applications where absolute compliance with welding procedures and international quality standards is essential. The Taurus range of brazing alloys and fluxes offers a quality solution to demanding brazing applications.

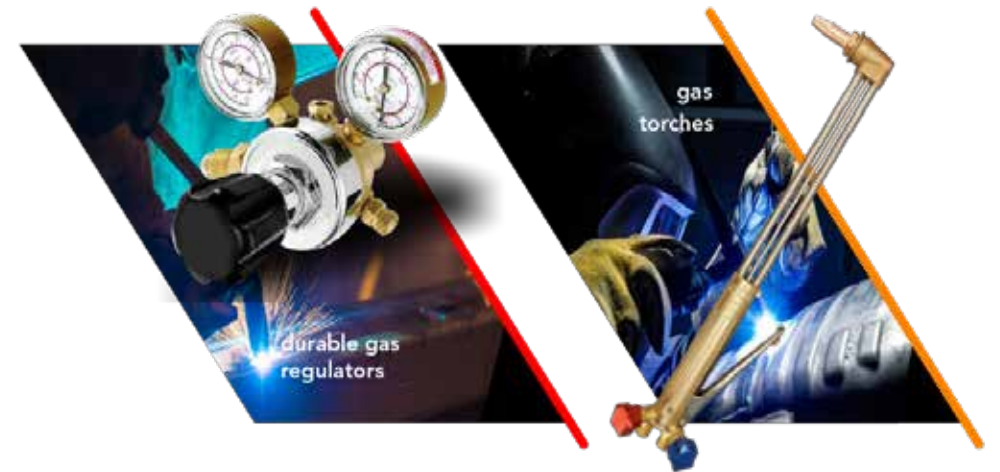

WELDER'S PROTECTIVE GEAR

Cut-n-Weld stocks the Strike Master everyday range of leather welders' protective gear. The Taurus range of quality, long life protective gear is available for the professional welder working in demanding applications.

GAS WELDING AND CUTTING EQUIPMENT

Gas welding and cutting equipment is stocked and covers a complete range of quality equipment for the general market at competitive prices. These brands cover a comprehensive range of durable gas regulators, gas torches, flashback arrestors, gas cutting and welding nozzles, gas kits, gas cutting machines, gas accessories, gas hose and fittings.
